

The Sixteenth Annual
Western Regional No-Dig Conference,
Exhibition, and Training Course

Concord, California

Monday – Tuesday, November 7th and 8th
Hilton Hotel - Concord, California

All of the benefits of a national conference program in a smaller forum with a personalized touch!

Come to California and learn about the latest in trenchless technology from experts in the field. Registration for the conference includes an informative one-day technical program and product exhibition area.

Conference Information

What are WESTT and NASTT?

WESTT is a regional chapter of the North American Society for Trenchless Technology (www.nastt.org) which is affiliated with the International Society for Trenchless Technology (www.istt.com). WESTT is a non-profit organization established in 2004 and includes Arizona, California, Hawaii, Nevada, and New Mexico. The purpose of WESTT, NASTT, and ISTT is to promote education and development of Trenchless Technology for public benefit.

What is the Conference Format?

Registration for the first day of the conference includes an informative technical program of papers. Attendees will have several opportunities to interact with the many exhibitors during sponsored meals, breaks, and a reception that evening. On the second day of the conference, the 8-hour NASTT New Installations Good Practices Course will be offered. Attendees may participate in either or both days of the conference (see rates on registration form).

Course Description: New Installation Methods Good Practices

This course covers best practices for design and construction of projects using auger boring, pipe ramming, pipe jacking, and pilot-tube guided auger boring. The course provides the information needed to determine which methods are best to use in various ground conditions and project limitations. Discussion of each method includes length and diameter capabilities, guidance and steering accuracy, advantages and limitations, equipment options. Case studies are used to illustrate how design considerations were applied to actual projects.

Who should attend?

The conference and course are both useful to public officials, engineers, utility company personnel, designers, and contractors who are involved with constructing, rehabilitating, and managing underground utilities. Government employees receive a special discounted registration rate for the conference and Good Practices Course.

*Earn valuable
Continuing Education
Units (CEU's)!*

Attendee Registration Discounts:

Register before October 7, 2022 to receive an early-bird discount of \$50 off both the conference and course fees. NASTT and PUG members receive a discount for both the conference and course fees. Government Employees are eligible for discounted registration rates* for both the conference and course.

Keynote Speaker: Greg Norby
San Francisco Public Utilities Commission
*Assistant General Manager –
Wastewater and Stormwater Enterprise*

Greg Norby is the Assistant General Manager of the Wastewater Enterprise for the San Francisco Public Utilities Commission. His professional background includes more than a decade in water and wastewater utility management and 14 years in the private sector, providing civil and water resources engineering solutions to utilities throughout California. He served for five years at the Ross Valley Sanitary District, where he led a comprehensive modernization of the operations and maintenance systems and practices, capital program, infrastructure asset management systems, competency-based training and certification, and organizational structure refinement. He also spent 14 years at CH2M HILL, where his duties included conveyance systems design, strategic planning, hydraulic modeling of wastewater and stormwater systems, integrated water resource planning, and project team management for local, state, and federal water clients. He earned a BS in Civil Engineering from CSU Chico and a master's degree in water resources engineering from Utah State University. His professional affiliations include WEF, CWEA, AWWA, CASA, ASCE, and ACWA.
